

AN EYE FOR AUTOMATION

MOTREC AUTOMATED GUIDED VEHICLE (AGV) SYSTEM SOLUTIONS

**NDC:
ONE SYSTEM
FOR YOUR FLEET
OF AGVS**

MOTREC UNIT LOAD AND TUGGING MODELS ARE AVAILABLE IN DIFFERENT CONFIGURATIONS!

NDC AGV SOLUTIONS

- MULTIPLE NAVIGATION TYPES
- MULTIPLE WHEEL CONFIGURATION

INDUSTRY IN MOTION: WE BELIEVE IT'S MORE THAN A MISSION.

It's who we are. And making things easier, more cost effective, safer, and more efficient is how we drive productivity. Yours, and ours. Whatever you do, we can help streamline it. Ask us how, why, and when Motrec can change your business landscape. We have the answer.

We excel at designing and manufacturing the highest quality electric industrial vehicles. Ours are renowned for their innovative designs, ruggedness, safety, reliability and ability to be customized or custom-built to your exact specifications. Automation is yet another innovation we're proud to offer. Motrec's Automated Guided Vehicle (AGV) System Solutions take intelligent engineering and apply it rigorously to your dynamic logistic operations. It's all about reducing costs and increasing productivity.

The NDC solution provides the backbone of Motrec AGVs for a completely scalable system. Backed by over half a century of expertise and more than 30,000 vehicle automations, Kollmorgen

has created the perfect system where vehicle navigation, hardware and software work together seamlessly. Its application to Motrec vehicles represents the fusion of automated versatility and exceptional quality.

AGV speaks to your bottom line – flexible, forward-thinking, built around your needs and designed to match or exceed your precise specifications and fully integrated into your operations. Motrec Automated Guided Vehicle System Solutions add up to more than a product. It's a way of thinking that may change yours.

MOTREC.COM

A CUSTOMIZED AUTOMATION SOLUTION

Motrec builds an impressive variety of electric industrial vehicles and the reason is simple: there are an infinite number of end-uses where they're essential as operational lynchpins. We're quick to recognize that each automation environment is unique, so there's no one-size-fits-all solution.

Nobody understands your business, or its challenges better than you. You live them daily. So, no one is better placed to walk us through your needs and ultimate objectives. Motrec offers unparalleled expertise for the planning, design, and implementation of automated guided vehicle systems. Together we'll drill deep into the structure, processes and applications that your operations rely upon for success, and from that will emerge a solution that is custom-made yet remains entirely flexible and supported.

OPERATE EASILY AND EFFICIENTLY

With simplicity and flexibility in mind, Motrec AGVs are designed to help our clients reduce the costs and risks associated with redundant tasks.

24/7/365 predictable and reliable operation results increase productivity and efficiency. Cutting-edge technology ensures flawless navigation along precisely programmed routes. Whether your procedures enjoy long-term stability or are constantly evolving, our highly adaptable AGV systems evolve alongside you.

CUSTOMER-DRIVEN

End-users require high uptime, efficient daily operations and applications that are easy to change.

Motrec helps you meet these demands by offering exceptional customer service, from custom engineering design solutions to after-sales service. To facilitate the implementation of automation solutions, Motrec offers training, support and consulting services.

QUICK ROI FOR LONG LASTING SOLUTIONS

AGVs are an excellent way to quickly improve your manufacturing and warehouse efficiency without heavy investments. The payback period for vehicle automation is quick while lasting more than 10 years.

Driverless, they take the guesswork out of everyday redundant tasks and allow you to reallocate precious manpower resources. They also reduce maintenance costs, damage to products, buildings and machinery while increasing vehicle lifecycle.

STAY SAFE

Safety is essential.

Every Motrec AGV we build strictly adheres or surpasses the American National Safety Standards for guided industrial vehicles (ANSI B56.5). Just as your operation is unique, so are your safety requirements. We'll see to it.

WORK WITH A RELIABLE PARTNER

Motrec has been designing and manufacturing high-end electrical industrial vehicles for over 30 years. Our electric vehicles are renowned for their ruggedness, safety, reliability and ability to be customized or custom-built to your exact specifications. We are globally recognized for our commitment to superior craftsmanship, exceptional customer-driven service, innovative designs and custom-centric engineering. We know what we're doing. But ultimately, it's about you. Your needs. Your bottom line. Your operation will always face challenges, but with Motrec as a partner, there will always be a way to overcome them through the improvement of productivity, safety, and profit. Motrec offers unparalleled expertise for the planning, design and implementation of complete logistic solutions.

Call us at 1-866-846-3558 and see how we can get things moving for you.
